

HEALTH PROFESSIONALS

NEWSLETTER #12 (7 Dec 2006)

What a terrific week!!!

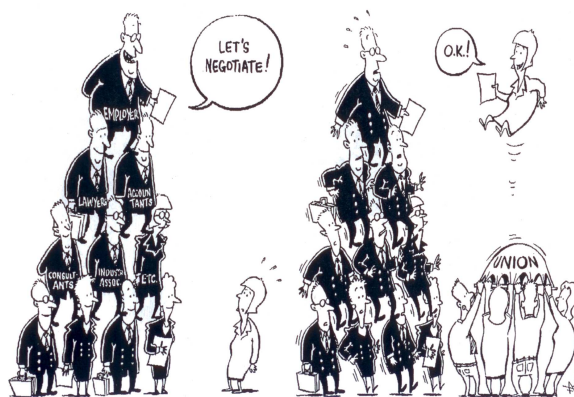

Our campaign has caught the attention of the media including national media. We have received messages of support from patients, the public at large, the union movement and health professionals from other States.

Meetings continue to be held at various hospitals and health units with the last meeting planned for Monday 11 Dec 06.

At those meetings, members have endorsed further industrial action as determined by relevant professions and units. You will be notified of the appropriate time to implement those actions in order to achieve maximum effect.

The current activities and industrial action is producing a result: a meeting with the Ministers for Health and Industrial Relations has been scheduled for Thursday 14 Dec 2006.

**Congratulations on your efforts
Keep up the good work!**

United We Stand – Divided We Fall
