

# MEDICAL IMAGING NEWSLETTER

17 October 2008

On Thursday 16 October 2008, radiographer delegates from CNAHS and the Health Services Union met with representatives of SA Health, MI Review Panel, HR Managers and Radiology Department Managers from the relevant hospitals and services to discuss the outcomes of the panel determinations.

After a lengthy discussion a number of issues were identified which included: consultation and communication, translation of position levels, further submissions in respect to positions that warrant further review.

The meeting agreed to:

- SA Health to provide a list of all positions by COB today (Friday 17 Oct 08);
- Combined Management & HSU meetings to be organised at all CNAHS sites to provide information to staff and for staff to determine the commencement of the Review implementation;
- Upon Radiographers' determining the commencement of the Review implementation, Management presents J&Ps to all staff for acceptance and signature. Please note that this is contingent on
  - ⇒ Your agreement to the J&P that it reflects your current duties and responsibilities;
- Positions that individuals disputes will be re-submitted for further review;
- Clarify the HR Principles' intent as there is some confusion from Management regarding the principles.
